DESERT GOLD

Our main style this autumn is Desert Gold; a mix of different materials like sandblasted wood, jute, glass, linen and metal in warm bronze shades. Combined with a pallet of various earth tones this style has a warm Mediterranean impression.

Immerge yourself in the world of Desert Gold, where warm tones and various materials create a vibrant and rich interior.

A world of inspiration

Check our new collection in one of our showrooms around Europe. Get in touch by email at info@light-living.com or make your order quickly and easily at light-living.com.

Our handmade lampshades are pure craftsmanship

Light & Living, originally a lampshade company

In our atelier in Noordwijk we develop and produce - as one of the few companies in the Netherlands - handmade lampshades. Twice a year, we make a seasonal change. We look at which fabrics fit on our lamp bases. We make sure to be on top of the latest trends by frequently checking new fabrics at our suppliers and developing our own designs. New trends are mostly based on material, print or colour.

Many variations possible

Introducing our shades into the themes of our collection, we select our colours and designs carefully to create perfect combinations. It is important to us to always test a fabric with and without lighting so we can make sure both look amazing. We produce about 3,500 lampshades a week. Annually we produce 180,000 lampshades by hand in our studio in Noordwijk. This makes us immensely proud!

Curious how our lampshades are made? Scan the code and we'll show you the entire process.

An advanced cutting table cuts all sorts of different materials and sizes. This makes up for a produce of 900 shades a day.

To ensure extra firmness, smaller lampshades are sown together. Larger lampshades are glued together with a machine.

All the lampshades are collected and provided with protective film, ready for shipment!

Check the complete range of shades on [light-living.com](https://www.light-living.com)

‘All products
we make are
on top of the
latest trends’

The inside rings of the
lampshades are positioned
with care and precision. The
edges of the lampshades are
neatly folded with transparent,
non-staining glue
